your gateway into CEE

## warehousing | value added services

Cappelen's own railway connection and convenient location to main motorway ensures top level warehousing and distribution services. Our modern logistics centre in Sofia with 7.000 m<sup>2</sup> palletising and free storage area provides a unique connection to the Balkan, Turkey and Middle East Countries and is a perfect platform for your cargo handling.

As a competent provider of value-added services in the field of warehouse and fulfilment we offer you the complete range of logistics services with individual supply chain solutions and cost-efficient outsourcing.

Top equipment, qualified and motivated employees are our strongest assets.

## company philosophy

general approach

Cappelen group stands for reliability and safety. More than 40 years of business experience shows that Cappelen is your right partner to develop long-term co-operations and acts as gateway into CEE and Middle East Region Countries for our customers and suppliers.

In our quotation we take into account all environmental aspects.

We plan, manage and optimize the entire value chain.

## rail transport solutions

We offer you an intelligent rail logistics solution with innovative and individual rail transport concepts.

Our railway connected terminals across Europe ensure you the best cargo handling.

Our direct contracts and partnerships with railway operators guarantee you a cost-effective and environment-friendly alternative to road transport in Central and Eastern Europe.

## road transport solutions

Our core business is the organisation of full and part load trucks by road and in combined transport from Central and North Europe to Balkan Countries, Turkey, Ukraine, Central Asia and the Middle East.

Our experienced team of specialists will organise cost-efficient and tailor made logistics solutions.
